

Carling Technologies™

Innovative Designs. Powerful Solutions.

4 March, 2013

Carling Technologies, LTD, Silver Jubilee!

The Sorenson family and Carling family of employees extend congratulations and a huge thank-you to all at Limited. We want to thank both present and past employees for having provided the great dedication and teamwork that has led Carling Technologies Limited through twenty-five years of incredible success.

These 25 years have virtually flown by 'in the blink of an eye'.

One memory that stays with me from the beginning of Limited, and was a bit symbolic of our having located in the U.K., was LTD's initial location in a small rented office with a true 'Throne Room'. The office was located on the top floor of an older building with the 'Throne Room' consisting of a small closet-sized space at the top of a very steep straight stairway. The view looking up the stairs was of a lone toilet centered at the top of the stairs, a true Throne! It was definitely the subject of many remarks with David Holmes and staff, including the thought of making it David's office, or, at least that LTD wouldn't go 'down the toilet'. It's gratifying to see we are now located in a great, company owned facility without stairways, and that Mike has an appropriate office!

I have wonderful memories of the early years, traveling and visiting prospective customers with David, Mike, and Eric, in the U.K. and throughout Europe. Initially, it appeared as though we could only successfully sell breakers in Europe. It's certainly rewarding to see how that has changed.

Now on to the next twenty-five!

Sincere thanks to all at Carling Technologies, LTD.

Rick Sorenson
President
