THERMAL CIRCUIT PROTECTION

CATALOG
FOUNDED IN
1920

Since its founding, Carling Technologies has continually forged a tradition of leadership in quality and product innovation.

There are few products that Carling Technologies hasn’t turned “ON” and fewer industries that haven’t turned to Carling for solutions. With ISO and TS registered manufacturing facilities and technical sales offices worldwide, Carling ranks among the world’s largest manufacturers of circuit breakers, switches, power distribution units, digital switching systems and electronic controls.

SWITCHES & CONTROLS
• Rocker
• Toggle
• Pushbutton
• Rotary

CIRCUIT PROTECTION
• Hydraulic-Magnetic
• Thermal
• GFCI / ELCI

CUSTOM SOLUTIONS
• PDU’s
• Keypads
• Control Modules

MULTIPLEXED POWER SYSTEMS
• HMI Devices & I/O Modules
• Programmable Displays
• Data Communication Interfaces
• Electrical Systems Monitoring

Thermal Circuit Protectors

This catalog features Carling Technologies’ current line of thermal circuit protectors, from 3 to 60 amps, which offer reliable, cost effective circuit protection. Thermal circuit protectors utilize a bimetallic strip electrically in series with the circuit. The heat generated by the current during an overload deforms the bimetallic strip and trips the breaker. Thermal protectors have a significant advantage over fuses in that they can be reset after tripping. They can also be used as the main ON/OFF switch for the equipment being protected.

Typical Applications Include:

- Household Appliances  
- Medical Equipment  
- Transportation  
- Audio Visual Equipment  
- Marine  
- Power Supplies  
- Power Strips  
- Exercise Equipment

Available Online are tools such as a configurit, product selector and stock check. Please visit www.carlingtech.com for the latest information on all our products.

Application Solution Engineers are readily available to assist you in selecting the appropriate product for your application. For further assistance, please email us at team2@carlingtech.com

Custom Design Solutions can be tailor-made for most any application using our extensive engineering resources.

Other Products such as hydraulic-magnetic and ground fault circuit breakers, switches and miniature switches are also available.

C1005B-Series
THERMAL CIRCUIT BREAKERS

The C1005B-Series offers the functionality of a switch and circuit breaker in a single compact package, which fits an industry standard .550 x 1.125 mounting hole. This combo device eliminates the need for both a switch and thermal circuit protector on customer panels. By using only this multipurpose product, wiring and assembly costs are greatly reduced, while at the same time, valuable panel real estate is saved.

The C1005B-Series is available lighted or unlighted, in a variety of colors, with solder lug or .250 tabs. Current ratings range from 7-16 amps at 125 and 250 VAC and up to 32 VDC.

Product Highlights
• .550 x 1.125 mounting hole (14mm x 28.6mm)
• Ratings from 7-16A
• Standard Reset/Off Legend
• .250 Tabs or Solder Lug Terminations
• 65°C Max Operating Temperature
• 1000 AIC Interrupting Capacity
• 1500 VAC Dielectric Strength
• 100M ohms @500VDC Insulation Resistance
• UL1077, UL1363, IEC 60934

Typical Applications:
• Household and Commercial Appliances
• On/Off-Highway
• Marine
• Telecom
• Power Strips and Supplies
• Audio-Visual Equipment
• Medical
• Generators

CTB-Series
THERMAL CIRCUIT BREAKERS

The CTB-Series is a compact, single pole, rocker actuated family of thermal circuit breakers designed to protect equipment. Utilizing simple, precision design with few moving parts, these breakers offer cost effective, extremely reliable circuit protection with high resistance against shock and vibration. Electrical ratings range from 3 to 16 amps at 125VAC, 250VAC, 125/250VAC or 50VDC. This breaker resets with the push of a finger and features a snap in mounting style, utilizing a 16mm dia. round Double D mounting hole.
