Multi-Function Display

Switch / Breaker Button Indicators

OctoPlex Switch/Breaker Buttons are displayed as indicators with a pre-defined color scheme. Touching a Breaker button will change the state of the load.

COLOR CODE GUIDE	BREAKER STATUS	DESCRIPTION
	Not Active; Unavailable	This is a switch/breaker that is currently not active. The distribution panel is most likely not receiving any power (AC or DC) or the distribution panel's main breaker is in the OFF position. This indication can also be present if communication to the multi-function display is lost.
	Active; OFF	This is a switch/breaker that is active, but currently in the OFF position. Pressing the button will turn the breaker ON.
	Active; ON	This is a switch/breaker which is active and currently in the ON position. Pressing the button will turn the breaker OFF.
	Active; TRIPPED	This is a switch/breaker that is active, but has been tripped by an over-current situation. Pressing and holding the button will bring up a sub menu, which allows the user to reset the breaker (turn OFF) and then turn the breaker back ON with an additional press.
	Active; Locked OFF	This is a switch/breaker that has been locked in the OFF position. The 'UNLOCK' button can be used to unlock this breaker.
	Active; Locked ON	This is a switch/breaker that has been locked in the ON position. The 'UNLOCK' button can be used to unlock this breaker.
	Active; Group OFF	This is a switch/breaker that has been setup with Group Control OFF.
	Active; Group ON	This is a switch/breaker that has been setup with Group Control ON.
	Active; Load Shedding OFF	This is a breaker with Load Shedding OFF (AC Only) .
	Active; Load Shedding ON	This is a breaker with Load Shedding ON (AC Only) .
	Active; Local Override OFF	DC Unit switched into Local Mode; Electronic Circuit Breaker (ECB) toggle switch in the OFF Position (DC Only) .
	Active; Local Override ON	DC Unit switched into Local Mode; Electronic Circuit Breaker (ECB) toggle switch in the ON Position (DC Only) .

Multi-Function Display

Hot Button

A Hot Button is used for navigating around the OctoPlex® system. Touch the desired Hot Button to navigate through selected functions.

Status Indicators

Status Indicators are indicators that appear on the bottom of the screen or on selected pages. They are not buttons that the user can not acknowledge; these are status indications from the System Interface Unit Monitor (SIU) that are transmitted on the OctoPlex® system.

COLOR CODE GUIDE	BREAKER STATUS	DESCRIPTION
	Inactive	This is a system status indication that is currently inactive.
	Active; OFF	This is a system status indication that is currently active, but is not ON or in an alert condition.
	Active; ON	This is a system status indication that is currently active, and is ON.
	Active; ALERT	This is a system status indication that is currently active, and is in an alert condition.

These Status Indicators below are commonly found at the bottom of each page in the Touchscreen. In this situation, all the indicators are active and 'OFF'.

Banner Alerts appear at the bottom of the screen to alert the user of an active alert. It allows the user to acknowledge the alert and depending on how the parameters are set. The Alert Table Editor will determine how to address the alarm/alert.
